BED BUG POST TREATMENT SUGGESTION LETTER

Customer: _____

Address: _____

Below is a list of things you will need to do before we return for your follow up visit for the Bed Bug treatment that was just completed. Failure to comply with these recommendations will make it very difficult for us to successfully remove the Bed Bugs from your home. Remember that we need your help to completely remove this bug.

FOLLOWUP CHECKLIST

We recommend that you immediately put covers over all mattress and box springs. This will keep any bugs that are now in the mattress and box springs there. If there are none there, they will not be able to infest your bed.	<input type="checkbox"/>
Wash all dirty bagged up clothing material in the hottest water possible. Dry clothes on 'High' heat. If the clothing is clean, there is no need to wash them again, just re-dry on high heat.	<input type="checkbox"/>
Vacuum any carpeting twice daily, removing and throwing the vacuum bag away each time. Be sure to vacuum along baseboards where carpets tuck under.	<input type="checkbox"/>
Vacuum all mattresses and box springs as well as any living room furniture that has a cloth covering. Pay special attention to all seams and folds.	<input type="checkbox"/>
When removing items that were packed away for the treatment, take extra care not to re-introduce Bed Bugs to your home.	<input type="checkbox"/>
If we recommend removing furnishing from your home, make sure to completely wrap the item in plastic and seal it with tape prior to removal.	<input type="checkbox"/>
You can replace your mattress and box springs as soon as we have completed your treatment. If you replace them prior to our giving you the 'alls clear', you must use a mattress cover on both the mattress and box spring or you risk introducing Bed Bugs to your new bed.	<input type="checkbox"/>
Any pillows small enough to be placed into your dryer should be dried on HIGH HEAT for a minimum of 20 minutes. The same applies to all stuffed animals. Make certain they won't be affected by the high heat of the dryer.	<input type="checkbox"/>

ADDITIONAL COMMENTS

Your follow up service should occur approximately 14 days from the date of initial treatment. Follow up service date: _____

*Thank You,
 Select Pest Control*
